Coursework/GPA. Choosing which math classes to study can be one of the most challenging parts of planning your high school schedule. High schools offer numerous math classes, often at varying degrees of difficulty, and it can be difficult to know which math classes will be the best for you and your future.

**The High School Math Courses You Should Take - PrepScholar**

The course's name should be changed to Geometry for the first half of the course, and Algebra II and Trigonometry for the second half of the course (currently Math B). Integrated is only used in the new Algebra course. The State of New York has announced that these changes will be implemented in the 2009/10 scholastic year.
