

## *Financial Accounting Explained*

### **Financial Accounting Explained**

Introduction to Financial Accounting. Financial accounting is a specialized branch of accounting that keeps track of a company's financial transactions. Using standardized guidelines, the transactions are recorded, summarized, and presented in a financial report or financial statement such as an income statement or a balance sheet.

### **Financial Accounting | Explanation | AccountingCoach**

What is 'Financial Accounting'. Financial accounting is the process of recording, summarizing and reporting the myriad of transactions resulting from business operations over a period of time. These transactions are summarized in the preparation of financial statements, including the balance sheet, income statement and cash flow statement,...
