Hitachi Vantara brings Pentaho Data Integration, an enterprise platform to accelerate data pipeline, that provides visual tools to eliminate complexity and get more productivity.

### **Pentaho Data Integration - Accelerate Data Pipeline ...**

It was not long before major corporations started taking an interest in computer graphics. TRW, Lockheed-Georgia, General Electric and Sperry Rand are among the many companies that were getting started in computer graphics by the mid-1960s. IBM was quick to respond to this interest by releasing the IBM 2250 graphics terminal, the first commercially available graphics computer.

The 3DEXPERIENCE platform allows companies to manage their mechanical, electrical PCB, and system-on-a-chip design data so changes can be formally controlled while facilitating collaboration. The data can either be managed natively with a connector to the CAD software tool, or the data can be converted into the same format used with 3DEXPERIENCE
