

## *Math Tubs First Grade*

### **Math Tub First Grade**

Alright ladies {and misters}. Time for a little Math Tub 101. I know I'm not the only teacher who implements tubs into her daily routine, so by no means am I the expert. I get lots of emails asking about how my math tubs are organized and how everything runs, so I thought this little [...]

### **Math Tub - The First Grade Parade**

This post is all about providing meaningful math centers for first grade! Because we spend 20+ days introducing our students to the guided math structure, the activities I want to provide during August and September are going to review skills that my beginning first graders were able to do in kindergarten.

### **Math Centers For First Grade - Tunstall's Teaching Tidbits**

Guided Math in First Grade I am hoping this post will help answer some questions I have been asked lately. But let me set us all straight because I am not an expert outside of my own little classroom.

Jan 21, 2019- Explore Natalie Towle's board "1st Grade Math tubs" on Pinterest. See more ideas about School, Classroom and Learning. Discover recipes, home ideas, style inspiration and other ideas to try.

### **115 Best 1st Grade Math tubs images in 2019 - Pinterest**

Teaching math to my first graders at the beginning of the year involves a lot of modeling routines, procedures, and new games/activities. We start off by focusing on numeration- identifying and counting numbers to 120, learning how to use different math tools (tens frames, number charts, and number lines), as well as how to make groups of ten when counting a large quantity of items.

### **Beginning of the Year Math Stations in First Grade**

My first years in 1st grade, I stuck with 5 but last year I branched into 7 since I was changing them less often. Teaching a combination class, the green math tubs are for 1st grade and the yellow math tubs are for Kindergarten.

### **Managing Math Centers - The Brown Bag Teacher**

I'm sharing a quick unit filled with addition math tub activities. I decided to enjoy a fall/acorn theme when creating these. I have a sweet friend who gave me a basket full of acorns that I can use for manipulatives. I also found some acorn shaped table scatters at Target. Love the Dollar Spot!! Here are a few pics from the 42 page (9 games)doc.

### **First Grade Wow: Addition Math Tub Activities with a Fall Theme**

Three years ago our 1st grade team transitioned from a transitional math block to a guided math block. By far, reading was our strongest subject and our reading growth has been amazing. While we were growing in math, it was definitely not at our reading rate. So, we started to compare the 2 blocks. For reading,...

### **Guided Math in 1st Grade: Where to Start? - The Brown Bag Teacher**

In addition to games and centers, bringing math to life is so important! Incorporating the use of math tools and models will help develop their mathematical practices. This is definitely my favorite part of my tutoring tubs! I could probably blog for a full 24 hours straight about all of the math tools and models I use in my classroom.

### **What's In My Math Tutoring Tub? - First Grade Made**

My morning routine with my first graders has definitely evolved over the years. I have always used some type of morning work, but it wasn't until about 4 years ago that I became really intentional about my morning work. I wanted to create something that allowed my students to hit all of their important reading and math skills.

**Morning Work Tubs - Fun in First**

Math Tubs in First Grade Grade Level- First Overview "Math Tubs" provide opportunities for children to develop deeper and broader understandings of the GPS standards. They consist of games or activities which are engaging and most importantly open ended so they can be visited multiple times and be used for differentiation. Tubs can be used in

**math tubs first grade - Georgia Standards**

First/Second/Third Grade Number Family Tubs Doubling Lesson Plan - After singing the 'Ants Go Marching' and discussing the rules of doubling, students will be able to create their own math sentence, through the use of symmetry, that accurately displays doubling.

**Math Tub Fun - Marcias Lesson Links**

I try to put a few games and activities inside each tub that will relate to the math topic of the week, and the other tubs are mainly review activities. Like Debbie Diller suggested, I found that keeping math work station groups to 2 or 3 kids really kept my students more engaged in learning and resulted in less conflict!
