Jamie is now four years old, and last time reporters checked in with his family he and his twin sister were developmentally on track. The practice Jaimie's mom believes saved his life is called kangaroo care or skin-to-skin, and it has been credited with dropping premie mortality rates from 70% to 30% in the town where it was first practiced. But kangaroo care isn't just beneficial for ...

7 Benefits Of Skin-to-Skin Contact After Birth - MommyPotamus
