Waking, Dreaming, Being is an exceptional and intriguing contribution to the exploration of consciousness as a multidimensional self and makes a convincing argument for the usefulness of philosophical, experiential, and scientific approaches to understanding consciousness.

Waking, Dreaming, Being | Columbia University Press

Waking, Dreaming, Being builds a bridge between two different worlds: the relative "new" Western world of science and the ancient Vedic wisdom as expressed in the Upanishad. This is a very interesting process wheer Evan talks about his own experiences, his life, experiments he has been through and in doing so he is able to put up a framework ...

The New York Times Book Review - Adam Frank: "[an] excellent book. Walking through the wreckage of a thousand atheism-versus-religion debates, [Thompson] asks us to do something truly radical and withhold judgment on the big (perhaps unanswerable) metaphysical questions as we carry out our explorations. Instead, we can focus with honesty and integrity on where...
